We will make professional healthcare solutions more accessible to life

Obstetrics and Gynecology Ultrasound

Lotus

Premium Obstetrics and Gynecology Ultrasound

1. The first ultrasound with curved screen in the industry
2. Multi-engine parallel operation platform
3. Outstanding super-resolution imaging technology - wiMicro
4. Auto fetal cardiac positioning - wiTrack
5. Intelligent OB standard view recognition - wiAspect
6. Built-in ultrasound workstation
7. Auto freeze & activate probe sensor

Critical Care Ultrasound

Carnation

Critical Care Dedicated Ultrasound

1. 21.3-inch anti-glare and high-sensitivity touch screen
2. 4 hours scanning time
3. Double-joint articulated arm with 360° rotation
4. Diagnostic-quality POCUS images
5. Full range of automatic measurement tools - wiCalc
6. Intelligent heart & lung assessment protocols - wiScan
7. The new generation patient information management system

Bedside Portable Ultrasound

Clivia

.....▶
The Art of Premium POC Ultrasound

1. 17.3-inch full touch screen
2. 6 hours scanning time
3. Excellent image quality for general practice
4. Full range of automatic measurement tools - wiCalc
5. Intelligent Heart & lung assessment protocols - wiScan
6. AI-based Nerve Recognition Tool - wiNerve
7. Intelligent Needle Enhancement Tools - wiNeedle & wiGuide
8. Monitoring change in muscle mass - PANO

Clover

.....▶
All Round Excellence

1. 15-inch LED display
2. 4.9kg with battery
3. Two built-in probe ports
4. Holo Beam™ imaging platform
5. 4D imaging
6. Versatile transducers cover comprehensive applications
7. Cloud Platform – wiCloud

Anesthesia and Pain Management Ultrasound

Labat

Premium AI-Power Anesthesia Dedicated Ultrasound

1. 21.3-inch seamless and waterproof full size touch screen
2. 6 hours long duration battery time
3. Outstanding image quality as the basis of precise procedure
4. Comprehensive accurate needle visualization solution - wiNeedle & wiGuide & wiLaser
5. Professional ANE & PM education solution - wiNerve & wiLearn & wiShow
6. Versatile configurations dedicated for ANE & PM - TEE probe & ultra high frequency probe

Navi

Intelligent Anesthesia Dedicated Ultrasound

1. 19-inch full size touch screen display with high sensitivity
2. 7 hours continuously working time for whole day practice
3. Remote control probe for easier operation in long distance
4. Professional needle visualization solution for in-plane and out-of plane procedure - wiNeedle & wiGuide
5. Education solution - wiNerve & wiLearn

Musculoskeletal and Rehabilitation Ultrasound

Piloter

The Next Generation of Tablet Ultrasound

1. 13.3-inch touch screen
2. Weighs 1.9 Kg with battery
3. Accurate needle visualization solution – wiNeedle & wiGuide
4. Two display modes for different application scenarios - Landscape mode & Portrait mode
